GRAPHICS & PRINTING

In-House Design Services

We offer complimentary design services to help you create just what you're envisioning. Our professional, in-house designers are here to help you create print-ready quality **design layouts** and **3D mock-ups** for product presentations.

File Formats Accepted

Vector File Types (Preferred)

• .AI (Illustrator File)

• .EPS

.PDF (Fonts outlined & images embedded)

Other File Types

• .PSD (Photoshop)

.JPGPNG

• .TIFF

We recommend submitting graphics in vector format for a crisp, clear print. Images should be in high resolution (at least 150 dpi) at full size to ensure a clear print.

Vector Logo Recreation

If your artwork isn't in the right format, don't worry because we can help! We can recreate any file into the correct format for just **\$50/hr**. This service will give you peace of mind to know that your logo will print in high-quality. We can even provide the vector files for your future use.

Colors

To match your colors accurately, please provide **100% opaque PANTONE® Solid Coated (PMS C)** colors for reproduction. Please submit your files in **CMYK** color mode.

Printing

Our printing workshop guarantees high resolution printing on all your products. We know that every product is used differently, which is why we offer multiple printing techniques from **dye-sublimation printing** to **screen printing** to prepare for every type of environment.

Samples Available

We offer fabric samples for all our printed and stock color products. If you need to match an exact color, we can print a swatch with your design on most materials for a small cost. Please allow extra time for the production process in order to for us to provide samples.
